Bruce: I am very happy with my results so I thought you might like a testimonial: I am in the process of restoring my credit with the help of Credit Repair Magic. I have been stunned by how simple and easy to use this program is. When I have a question, Bruce is always personally available with a clear and cogent reply. Previously, I was discouraged about my credit situation, but now that almost all of the negative items have been removed and my credit score is over 700 again, I feel very hopeful about being able to pull my financial and credit life back together again.

A million thanks Bruce. Your program and advice is invaluable. Since I am a novice, a lot of what you suggested was unknown to me. I will keep you posted on my progress, but so far, everything I disputed has been removed or shows as current. Again, thank you.

To be honest, it seemed similar at first to other programs that didn't work for me, but I never got the frivolous response with yours and items I disputed before suddenly came off. I never thought that such little differences could make such a big difference. You learn something new every day!
